

RAADHIKKA GUPTA

Canadian Citizen • Oakville, ON • 647-531-1149 • radhika16th@gmail.com • [linkedin.com/in/radadhikka-gupta/](https://www.linkedin.com/in/radadhikka-gupta/) • github.com/radhika16th

EDUCATION

McMaster University - Bachelor of Engineering, Software Engineering **3.7 GPA**
Relevant Coursework: Data Structures & Algorithms, Software Development Lifecycle (SDLC), Databases, Operating Systems, Software Testing, CI/CD Pipelines, Agile
Part of the Software Team in Humanoid Club (AXIBO Inc.) **Expected Graduation: Apr 2028**

SKILLS

Languages & Backend : Python (5 yrs) • Java (3 yrs) • C • JavaScript • SQL • REST APIs • FastAPI • Flask

ML & AI: LLMs • Prompt Engineering • Fine-Tuning • RAG • Linear Quantization • OpenCV • TensorFlow

Tools : Git • VSCode • GitHub Actions • Web Scraping • Docker • LangChain • Web Development • Linux

WORK EXPERIENCE

Software Developer Intern **May 2026 - Current**
BMO Financial Group, Toronto, Canada

- Collaborating to troubleshoot environment configuration and maintain internal software development workflows
- Working with **version control systems** and development tools within an enterprise software environment
- Supporting **software debugging, testing, and system integration** processes in a collaborative **Agile** setting

Software Engineering Intern **Oct 2025 - Dec 2025**
Yureka Canada, Canada

- Developed a centralized grant management web application using Python through automated web scraping
- Implemented advanced filtering by eligibility, region, etc., **reducing manual grant search time by ~50%**
- Implemented **full bilingual support covering 100%** of user-facing content, improving accessibility for users

Artificial Intelligence Intern **May 2025 - Aug 2025**
NetWeb Software, Canada

- Built **Flask** fundamentals: routing, Jinja templates, Bootstrap, sessions/cookies, basic auth, Blueprints, Docker
- Developed **2 streaming LLM applications**, leveraging **prompt engineering** to make low-latency responses
- Built an OpenCV Object Counter for image/video POC demos, enabling **faster object detection and quantification**
- Learned **Fine-Tuning** methods: LoRA/QLoRA, PEFT, quantization (8-/4-bit), and training pipeline basics
- Explored **Retrieval-Augmented Generation** (RAG) concepts for grounding LLM outputs with external data sources

Software Engineering Intern **Jan 2025 - Feb 2025**
Maid In Luxury Inc. & Wouessi Inc., Canada

- Executed the software development lifecycle to design high-quality software products utilizing AI/ML
- Developed an interactive pricing calculator to improve client experience, **reducing manual effort by 70%**

Machine Learning Engineer Intern **Dec 2024 - Jan 2025**
AIModels Tech Inc., Canada

- Engineered data and structured YAML file for sensor data collection, optimizing data center operations
- Designed HVAC model for load balancing and cooling, **reducing power consumption by 15%**

PROJECTS

Exercise Chatbot | Personal Project (~15 hours) - [Github](#) **Aug 2025**

Python, Flask, SSE, Transformers; symptom assistant with red-flag routing, non-symptom fallback, and streaming output

Hooked | Hackathon Project (~10 hours) - [Github](#) **Aug 2025**

Python (Flask + Jinja2), HTML/CSS; user auth, genre + books preferences, personalized recommendations, saved books

Object Counter | Personal Project (~17 hours) - [Github](#) **July 2025**

Python, Ultralytics YOLOv8, OpenCV, VidGear; real-time object tracking with ID and vertical line-cross counting

ACHIEVEMENTS

Lieutenant Governor's Community Volunteer Award, Issued by Lieutenant Governor of Ontario **Sept 2024**

Tom McNaught Community Service Youth Appreciation Award, Issued by Optimist Club of Oakville **Jun 2024**

Harvard University, CS50 Intro to Computer Science; Grade: 100% | Proficiency in C, Python, SQL, **Dec 2023**
and JavaScript, and expertise in algorithms, data structures, abstraction, and web development

Volunteering, Community Living Ontario, Big Brothers Big Sisters, Kumon, Reach For The Stars **2021 - 2023**
